

# Driving Business Forward

## Geared-up Total Supply Chain Solutions

Positioned at the forefront of innovation, we are geared up to offer flexible and extensive logistics solutions for the automotive industry. Through a process-driven approach, our integrated automobile logistics services ensure quick adaptation to changes in product mix and volume. Our services include upstream production line logistics, buyers' consolidation, cross-docking, vendor management, and more.

Leveraging our global expertise and our unmatched network in Asia, we ensure swift and cost-effective solutions for the automotive industry.

### About Kerry Logistics:

We are Oceania's specialist for global logistics, standing as a top service provider with a solid foothold in Australia and New Zealand. Alongside our global presence in 59 countries, we have local operations in key gateways including: Melbourne, Sydney, Adelaide, Auckland, Palmerston North, and Christchurch.

### Customised Supply Chain Solutions

Closely collaborating with automotive manufactures and other suppliers means we can help you respond quicker to changes in demand. Our customised solutions include upstream production line logistics, buyers' consolidation, cross-docking, vendor management, Product quality control management, and marketing promotion logistics

### International Freight Forwarding

Through a robust network of connections with ocean, air, and land carriers, Kerry Logistics delivers reliable and cost-efficient freight services. We offer all conventional cargo transportation including: FCL, LCL, Multimodal, charters, and time-definite products.

### Customs Brokerage

To minimise the risk of delay, we employ brokerage staff experienced in the intricacies of local trade regulations, processing over 30,000 entries annually.

To provide the fastest access to the market, we are part of the **Australian Trusted Trader** program, which reduces red tape at the border, improves certainty in export markets, and expedites the flow of your cargo in and out of Australia

### Duty Reviews

Our services cover consultation on import / export and customs matters. **We conduct regular duty reviews to ensure your business pays the least amount of duty as legally possible whilst maintaining a strong focus on compliance.**

### Landed Costings

Our Landed Cost Calculator provides an accurate estimate of your product's total cost, factoring in import duties, GST, taxes, and other government fees before arrival at the destination.

### Sub-Assembly and Kitting

Our solutions minimize depreciation risks by assembling vehicles near end customers. We offer BOM assembly, SN management, picking, sorting, kitting, sequencing, and parts testing.

### Vendor-Managed Inventory (VMI)

Our inbound logistics and VMI solutions guarantee year-round raw material supply for your production. We offer vendor hub operations, catalogue management, schedule/KANBAN production, JIT delivery, and milk-run logistics.

### Real-time Visibility

All services are accompanied by our proprietary IT platforms, allowing you to track and trace your shipments from the moment the products are collected through to final delivery. To suit your needs we offer 3 options:

FEATURES	TRACK & TRACE: FREE	KTREKER: FREE*	VBO: PAID
