

Industrial & Material Sciences Logistics

In delivering a full range of industrial products to wholesale and consumer markets, our Industrial and material Sciences (IMS) solutions span logistics analysis, consultancy and design, engineering, and logistics process optimization.

Kerry Logistics provides integrated supply chain solutions from origin to destination in line with the highest international standards. Our experienced team collaborate with producers, suppliers and end-users to resolve specific and complex requirements for the Industrial & Material Sciences (IMS) market

About Kerry Logistics:

We are Oceania's specialist for global logistics, standing as a top service provider with a solid foothold in Australia and New Zealand. Alongside our global presence in 59 countries, we have local operations in key gateways including: Melbourne, Sydney, Adelaide, Auckland, Palmerston North, and Christchurch.

Customised Supply Chain Solutions

Working in collaboration with producers, suppliers and end users, we offer extensive supply chain solutions leveraging on in-house expertise and our network of logistics facilities

- Logistics analysis, consultancy and design,
- Engineering, packaging and conveying,
- Best practice – SOPs / KPIs
- Logistics process optimisation

Origin Warehousing and Material Handling

Our purpose-built logistics centres across China & Asia expertly manage hazardous cargo throughout the region, meeting ISO 14001, ISO 9001, and OHSAS 18001 standards.

Our Services include: Bonded and non-bonded storage, Order fulfillment Bagging and bulking services, ISO tank / container management, Inventory management, and Quality control

Freight and Distribution Management

To ensure the timely shipment and transportation of your industrial and chemical products, we provide comprehensive shipping documentation and liaise with relevant government agencies. You can rely on us to distribute all types of industrial and chemical products around the world.

- International freight forwarding (FCL, LCL, Multimodal etc.)
- Administration and documentation
- Pan-China distribution through container haulage, and road and barge services
- Customised transportation solutions for:
 - Bulk liquids / dry bulk / packed products
 - Single / multi-compartment equipment
 - Stainless steel / rubber lined / insulated tanks & containers

Customs Brokerage

To minimise the risk of delay, we employ brokerage staff experienced in the intricacies of local trade regulations, processing over 30,000 entries annually.

To provide the fastest access to the market, we are part of the **Australian Trusted Trader** program, which reduces red tape at the border, improves certainty in export markets, and expedites the flow of your cargo in and out of Australia

Duty Reviews

Our services cover consultation on import / export and customs matters. **We conduct regular duty reviews to ensure your business pays the least amount of duty as legally possible whilst maintaining a strong focus on compliance.**

Landed Costings

Our Landed Cost Calculator provides an accurate estimate of your product's total cost, factoring in import duties, GST, taxes, and other government fees before arrival at the destination.

Real-time Visibility

All services are accompanied by our proprietary IT platforms, allowing you to track and trace your shipments from the moment the products are collected through to final delivery. To suit your needs we offer 3 options:
